

FUNCTIONAL PRODUCTS

NATURAL INGREDIENTS

Extensive research and development goes into the formulation of our functional products, which are made from 100% natural ingredients.

A CONSTANT FOCUS ON INNOVATION

We create forward-looking, cutting-edge formulations that address the future challenges faced by the animal production and nutrition industry.

Our objectives include working towards a more appropriate and responsible use of antibiotics; promoting optimal gut health; ensuring better feed conversion and improved animal health and helping to reduce the environmental impact of the livestock industry.

IN VIVO TESTING

Our products are tested by leading Institutes specialized in the vivo evaluation of products for animals.

FLEXIBILITY OF CHOICE

Our products are available in liquid and powder form and in a variety of packaging types to suit a broad range of requirements.
